PRODUCT SPECIFICATION

1. Product specifications and function introduction

model	
product name	Wall-mounted advertising machine
LCD panel	
diagonal size	49 inches
Panel brand	LG, SAMSUNG, AU (A size screen)
type	TFT-LCD
resolution	1920 × 1080 (FHD) @60hz
Brightness (Typical value)	350cd/m ²
Contrast (Typical)	1200:1
Viewing angle (horizontal/vertical)	178°/178°
Response time (grayscale)	8ms
Viewing area(mm)	1073.8 (W) × 604 (H) mm
Overall machine size (mm)	1109 × 644 × 16.6mm _
Zoom	16:09
Response time	<8ms
life	>60000H
Power characteristics	
switching power supply	AC100-240V~(+/-10%),50/60Hz
Power consumption (typ.)	90W _
Power standby power consumption	1W
Power interface	Standard 220V two-phase three-wire system
Mechanical specifications	
Shell material (frame/back shell)	Aluminum alloy/sheet metal
Shell material (front frame/rear shell)	black
protective glass	4mm tempered glass/level 7 earthquake resistant
Installation form	wall hanging wall hanging
Heat dissipation	Temperature controlled heat dissipation

on method	
environ ment	
Operatin g tempera ture	0°C~50°C
Working humidit y	20%~80% (non-condensing)
storage tempera ture	-20°C~ 55 °C
Storage humidit y	10%~90% (non-condensing)
appendi x	
User manual	Instructions, warranty card, certificate of conformity
cable	power cable
Others (optional accessories)	Remote control, WiFi head, keys,

Android plan	
CPU	Quanzhi core main control chip
GPU	Mali-400MP2
Main frequency	1.8 GHz _
Memory	1G DDR3
Built-in memory	NAND FLASH 8G
operating system	Android 6.0 or above
USB2.0 interface	4 USB HOSTs
LVDS output	1, can directly drive 50/60Hz LCD screen
HDMI output	1, supports 1080P output
Network support	Equipped with RJ45 interface, WiFi module, 3G 4G access (optional)
image rotation	Supports 0 degree, 90 degree, 180 degree, 270 degree manual/automatic rotation
Android version feature description	
Network support	3G, Ethernet, supports WiFi, wireless peripheral expansion, Bluetooth 4.0
Play content	Pictures, videos, pdf, text, web pages, live broadcast sources, local resources
Various controls	Local weather restrictions, calendar, bank exchange rate, timer, countdown
Cloud platform information release	Install the software and log in to the cloud platform anytime, anywhere to remotely control any networked advertising equipment, which can be centrally managed across regions.
layout template	A variety of split screens can be freely matched with rich layout templates. Mixed split screens can solve the problem of a single split screen and make advertising display more exciting.
Interactive template	There are static and dynamic online templates to download, eliminating the trouble of making promotional advertisements and making them dazzling.
Mobile cloud control APP	Mobile phone fast delivery, quick control and monitoring
Automatic updates	New functions of the cloud platform are online, and your account can be synchronized instantly. You don't need to update and upgrade yourself. You can synchronize our new functions at any time.
display mode	Controllable full-screen and split-screen playback (create multi-screen display, logo area, perpetual calendar area, video area, picture area, Subtitle area, etc.) can be divided at will and the screen display can be laid out by oneself.
boot	Automatic loop playback at startup
Breakpoint memory	Support breakpoint memory function
Timer switch	Supports scheduled power on and off function, unattended around the clock
Can be used as a stand-alone machine	When the network is disconnected, it can be used as a stand-alone version. It can still produce diversified content through powerful background information publishing software and then export it. Copy it to the memory card and insert it into the advertising player to play it in a

	loop
Language menu	Supports Chinese, English and other languages
Smart remote control	Fully functional remote control operation
Security and anti-theft	Equipped with anti-theft lock function to prevent the machine or storage from being stolen
Play media	USB flash drive, SD card
Playback settings	Loop, random, unicast, sequential
Picture playback	Switching effects such as rotation, zoom, pan, slide show, etc.
Anti-theft lock	Prevent theft of machines or storage devices

2. Product case real map/Product case real map

With the diversification of industry needs and the innovation of enterprise solutions, our company specializes in launching conventional machines, software equipment combinations and customized machine solutions. Enterprises can choose different machines for customized production according to their own needs and actual usage. By customizing their own unique shapes, matching the color matching of the environment and the requirements of the enterprise, running the program smoothly and providing services, they can present the enterprise's image. At the same time, the high-end image can better control costs, so that customized projects can achieve greater success.

Our company has always maintained good cooperation with many large enterprises and has a rich list of successful cases. We look forward to sincere cooperation with you as soon as possible!
